Statement of Reasons for Allowance

1. Claims 1-46 and 60-65 are allowed. The following is an Examiner's statement of reasons for allowance: Applicants amendment to claim 25 overcomes the new matter rejection made in point #4 of the final rejection. As explained before, Applicants' claim 25 is patentable over Watanabe (J. Med. Chem.) because Applicants no longer claim acetates and the homologous propionate would not be suitable for Watanabe's (J. Med. Chem.) intended use. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

2. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth in both the Final Rejection of 5/5/04 and the Office action of 11/25/03. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

Applicants argue that the admitted alteration to Inventor Jin's address was made before the declaration was signed and that the Jin's signature and the alteration are on the same sheet of paper. To the first point, there is no way by inspection to determine the sequence of events concerning Jin's signature. The alteration could have taken place before he signed, immediately after he signed, or even days later. Some else could have done the alteration. To both points, 37 CFR 1.52(c) (1) is quite clear, "[a]ny interlineation, erasure, cancellation or other alteration of the application papers filed must be made before the signing of any accompanying oath or declaration pursuant to § 1.63 referring to those application papers and should be dated and initialed or signed by the applicant on the same sheet of paper." Thus, the alteration itself, in addition to being on the same sheet of paper and made before the signing, must additionally be dated and initialed or signed by Applicant.

3. Information regarding the status of an application should be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system,

contact the Electronic Business Center (EBC) at (866) 217-9197 (toll-free). All Post-Allowance correspondence concerning this application must be mailed to the following address:

Box Issue Fee
Commissioner for Patents
Washington, DC 20231.

Such correspondence (amendments under 37 CFR 1.312, IDS statements, formal drawings etc) also may be faxed to the Office of Patent Publications at (703) 308-5083. Sending Post-Allowance papers to Technology Center 1600 will only cause delays in matching papers with the case.
